Who We Are

Shanzy Solutions Ltd is a private limited company incorporated in Kenya under the Companies Act, 2015, with its registered office on Desai Road in Ngara, Nairobi. The company brings two essential services under one roof: the supply of quality goods and the delivery of building and construction works. We serve government ministries, county governments, schools, hospitals, NGOs, private businesses and individual homeowners who need a partner that can both source the materials and put up the structure.

Our approach is simple. Every client gets a clear scope, an honest quotation and a schedule we can actually keep. Whether the order is a box of stationery or a multi-storey building, we treat it with the same attention to detail, the same respect for the budget and the same pride in the finished result.

Because we handle both procurement and construction in-house, our clients deal with one point of contact, one invoice trail and one team accountable from the first site visit to the final handover.

> *"One partner from purchase order to practical completion."*

Leadership

Shanzy Solutions Ltd is owned and directed by Sharon Jedidah Nyawira Macharia, who serves as the company's sole Director and Shareholder. She provides the strategic direction of the business, oversees client relationships and ensures that every supply order and construction contract is delivered to the standards the company has set for itself.

Our Purpose

Our Vision

To be Kenya's first-choice partner for dependable supplies and well-built structures that stand the test of time.

Our Mission

To source and deliver quality goods on time and to build safe, durable and cost-effective structures, while treating every client, worker and community with fairness and respect.

Core Values

Integrity	We quote honestly, report openly and keep our word on price, quality and time.
Workmanship	We build to approved drawings and specifications, and we do not hide shortcuts behind plaster.
Safety	Every worker goes home safe. Protective equipment and site discipline are non-negotiable.
Accountability	We own our results, fix our mistakes quickly and stand behind every handover.
Partnership	We grow with our clients, suppliers and local communities, not at their expense.

Telephone	+254 727 884 730
Email	shanzysolutionsltd@gmail.com

What We Do

Our work falls into two divisions that support each other. The supplies division keeps institutions running day to day, while the construction division builds and maintains the spaces they work in.

1. General Supplies

We source from manufacturers and authorised distributors, inspect goods before dispatch and deliver to the client's door. Our supply lines include:

- **Building materials:** cement, steel and reinforcement bars, ballast, sand, timber, roofing sheets, tiles and paint.
- **Hardware and plumbing:** pipes and fittings, tanks, sanitary ware, tools and fasteners.
- **Electrical goods:** cables, lighting, switchgear, solar panels and accessories.
- **Office supplies:** stationery, printing consumables, furniture and filing systems.
- **ICT equipment:** computers, printers, networking equipment and accessories.
- **Safety and protective wear:** helmets, reflective jackets, boots, gloves, overalls and first-aid kits.
- **Cleaning and sanitation:** detergents, disinfectants, janitorial equipment and hygiene products.
- **Branding and promotional items:** branded apparel, banners, signage and corporate gifts.

Safety & Protective Wear

2. Building & Construction

Our construction team takes on new builds, renovations and maintenance contracts. Each project is supervised on site and delivered against an agreed programme of works.

- **New construction:** residential houses, commercial premises, classrooms, offices and institutional buildings.
- **Renovation and refurbishment:** re-roofing, re-plastering, partitioning, flooring and full interior make-overs.
- **Civil works:** access roads, culverts, drainage, paving, perimeter walls and fencing.
- **Water works:** plumbing installations, water tank stands, borehole fittings and rainwater harvesting.
- **Electrical installations:** wiring, lighting, power points and solar installations.
- **Finishes:** painting, tiling, ceiling works, doors, windows and joinery.
- **Maintenance contracts:** scheduled and on-call repairs for schools, offices and estates.

How We Deliver

Every assignment, large or small, follows the same five-step process. It keeps the client informed and keeps the project on schedule.

Step 1 · Consultation	We listen to the client's needs, timelines and budget, and agree on a clear scope of work or list of items.
Step 2 · Site Visit & Quotation	For construction, we inspect the site and prepare a detailed bill of quantities. For supplies, we confirm specifications and availability.
Step 3 · Approval & Planning	Once the quotation is approved, we issue a work programme or delivery schedule and mobilise labour and materials.
Step 4 · Execution	Our supervisors manage the work daily, with regular progress updates and quality checks at every stage.
Step 5 · Handover & Support	We hand over with a final inspection, snag list and documentation, and remain available for after-sales support.

Quality, Health & Safety

Good construction starts with good materials and a safe site. We hold ourselves to the following standards on every job:

- Materials are sourced from approved suppliers and checked against specification before use.
- Works follow approved drawings, Kenyan building regulations and the client's technical requirements.
- Every site has a designated supervisor responsible for quality and safety.
- All workers are issued with appropriate personal protective equipment.
- Sites are kept tidy, secured and clearly signposted to protect workers and the public.
- We respect the environment by managing waste responsibly and minimising disruption to neighbours.

Who We Serve

Our clients range from public institutions with strict procurement procedures to families building their first home. We are comfortable working with:

Government	National ministries, state agencies and county governments.
Education	Primary and secondary schools, colleges and universities.
Health	Hospitals, health centres and dispensaries.
Non-Profit	NGOs, faith-based organisations and community projects.
Private Sector	Corporates, SMEs, developers and property managers.
Individuals	Homeowners and landlords building, extending or renovating.

Why Partner With Shanzy

- **One-stop service.** We supply the materials and build the structure, so there are fewer gaps, fewer delays and one team to hold accountable.
- **Transparent pricing.** Itemised quotations and bills of quantities with no hidden costs.
- **Timely delivery.** Realistic schedules that we track and report on throughout the job.
- **Skilled workforce.** Experienced artisans, technicians and supervisors who take pride in their craft.
- **Compliance-ready.** We understand public procurement requirements and keep our documentation in order.

- **Lasting results.** We build for durability, not just for handover day.

Our Commitment

At Shanzy Solutions Ltd, we measure success by the trust our clients place in us and the quality of what we leave behind. Every delivery that arrives on time and every building that stands strong adds to a reputation we work hard to protect.

We welcome the opportunity to support your next supply order or construction project, and we look forward to building a long and rewarding partnership with you.
